

## **REMARKS / ARGUMENTS**

In complete response to the Advisory Action dated June 6, 2006, on the above identified application, reconsideration is respectfully requested. Claims 12-15, 17-24, and 26-40 are pending in this application.

With this amendment, claims 12 and 23 are amended.

### **Claim Rejections Under 35 U.S.C. § 103:**

Claims 12-15, 17-24, and 26-40 currently stand rejected under 35 U.S.C. 103(a) as being unpatentable over Vaidya, et al. (6,051,805) taken with WIPO document no. WO 02/058878. The Applicants respectfully submit that these claims are not unpatentable over Vaidya '805 taken with WIPO '878.

Claims 12 and 23 have been amended to teach a welding shop optimization resulting in an increase in average welding shop efficiency. Page 13 of the instant application teaches that welding shop efficiency is expressed as the length of bead deposited per unit time. Due to these claim amendments, the Applicants respectfully contend that the basis for this rejection deserves reconsideration.
